

NATIONAL SECURITY AGENCY
FORT GEORGE G. MEADE, MARYLAND

Serial: N 1461

28 SEP 1962

62-7094

SECRET

Director
Central Intelligence Agency
Langley, Virginia
ATTN: Assistant for Coordination

Dear Sir:

Reference is made to your Memorandum, Subject:
Scientific and Technical Intelligence -- General, dated
27 August 1962.

As you are aware, the USIB SIGINT Committee has recently recommended deletion of recommendations 2.(f) and 2.(g) from Attachment B to USIB-D-34.1/3. Since these were the only proposed recommendations directly applicable to this Agency, this action in effect has removed the specific basis for any NSA response to the reference.

25X1

The investment of man and money in these programs is, of course, phased over the next several years. Should USIB determine that acceleration of these programs is appropriate, there will undoubtedly be a requirement for additional funds and manpower. The scope of this requirement will depend in large part on the degree of acceleration desired.

EXCLUDED FROM AUTOMATIC REGRADING;
DOD DIR 5200.10 DOES NOT APPLY.

NSA review completed

SECRET

Serial: N 1461

It is recommended that the USIB review of the telemetry problem--proposed by the SIGINT Committee for six months hence--attempt to reach specific judgements and recommendations on this point. It is recognized that, meanwhile, the growth rate of the problem may require sudden interim action to increase the resources investment. If such a need becomes evident to this Agency, I shall promptly bring this fact to the attention of appropriate authorities.

Sincerely,

LOUIS W. TORDELLA
Deputy Director

for GORDON A. BLAKE
Lieutenant General, USAF
Director
